

School to Parent Validation Letter

October 17, 2016

Dear Parent,

As we near the start of a new school year, we want to introduce you to SkoolLive, a new and innovative kiosk system that will enhance school-to-student communication at Lee's Summit North. The interactive technology is the first of its kind in the country. SkoolLive assists schools across the Nation to move forward into the digital landscape and communicate with students in a way they understand, all at zero cost to the school. SkoolLive has developed opportunities for parents, family, and friends to not only support the school financially, but also to cultivate a fun, positive and engaging campus environment for students. The first phase of these opportunities is the SkoolLive "Student Shout-out":

SkoolLive "Student Shout-out" – Create a memorable school year with a 5-day digital banner on all campus kiosks for your son or daughter. With the ability to generate unique messages tailored exclusively to your loved ones on-campus, SkoolLive now gives you access to speak with them directly all year round. From a simple Happy Birthday shout-out to congratulating someone special on a personal achievement, pre-game encouragement or post game celebration messages, wish a family well with upcoming exams or tell your child how proud you are for graduating this school year. The "Student Shout-out" gives family and friends the opportunity to send a unique message on campus that will create a memory for a lifetime. More details, including purchases, can be found at <http://cornerstore.skoollive.com/>.

This is a great, no-cost partnership for Lee's Summit North with a team of campus advocates whose focus is to mobilize the local community to support our school. We encourage you to mention this opportunity to your friends, neighbors and local businesses to support Lee's Summit North. We look forward to hearing from you and would appreciate you passing the following contact information over to those interested in partnering with the Lee's Summit North and SkoolLive.
