- LSR7 Early College Program and MCC Applications

- Enrollment Steps
- Applications
- Course Descriptions
- Placement Testing Info.
- Career Pathways....

# What the students & parents are saying...

**"Taking only a few classes instead of a full 15 credit hour schedule help make the transition of the new work load and expectations smooth. I also learned what mistakes to avoid for the future." 2019 Graduate**

**"I would recommend Innovation Track for any LSW student who plans on attending university. It eases the transition from high school to college and helps students get acclimated to a more rigorous environment while having ample supports in place." 2020 Parent**

**"I loved doing the innovation track, it got me a head start on my college career and is allowing me to enter my first year at a 4 year university with knowledge on how college level courses are run. Doing the innovation track also allowed me to look out of state for college because I will be going in with the credits of a sophomore. " 2021 Graduate**

**"I am thrilled my daughter took part in this program! It was very beneficial for her to learn things about college (how to order books, talk to teachers, payments) while living at home." 2020 Parent**

**This program is a true blessing to families who are on a budget, its making college affordable and is a huge jump forward for those who participate in this program.  
"2020/2022 Parent**

# ENROLLMENT

## SPRING 2024 ENROLLMENT DATES
